

Increasingly, ROVs are deployed to undertake a range of maintenance and inspection procedures on marine structures and our ROV adaptor allows even mini ROVs to be used to carry out CP inspections.

**NOTE:** UCP1A Probe not included.

### FEATURES

- Rugged PVC mounting boss
- Impact absorbing design
- Quick and simple to install
- Allows direct fitment to a wide range of mini ROVs
- Can be used to mount either Buckleys' UCP1A (contact) or UCP1B (proximity) probes

### TECHNICAL SPECIFICATIONS

- Overall length: 390mm
- Flexible tube length: 250mm (other lengths by request)
- Weight: 570g
- Flexible tube material: Reinforced rubber
- Mounting boss material: PVC/stainless steel
- Mounting diameter range: 20-25mm
- Diameter: 51mm

**Note:** Due to ongoing technical developments, all stated information is typical and is subject to change without notice or obligation.

### AFTER SALES SERVICE / TECHNICAL SUPPORT

All Buckleys products are manufactured under the controls established by a quality management system that meets the requirements of BS EN ISO 9001:2015 and are supplied with a one year 'back-to-base' warranty. The equipment is proven to be robust and reliable and will give years of service if maintained in accordance with our instructions.

Buckleys provide full repair and calibration facilities; offering a fast turn-around service for customers' equipment.

Advice on specific applications for all Buckleys products is available from our technical department. Contact us by telephone or e-mail using the contact details below.

Designed to be compact and lightweight yet as rugged as possible; this ROV adaptor's simple design allows for fitment to wide range of ROVs while its impact-absorbing design protects the test probe and ROV from excessive impact.

Ideal for use with either the UCP1A or UCP1B cathodic protection measurement probes, this adaptor provides a secure mounting while absorbing head-on impacts and will deflect to avoid damage from skewed impacts.

The adaptor boss allows the probe's cable to pass through the body of the adaptor; avoiding the possibility of it snagging on marine structures.

### KIT COMPRISES

- Mounting boss & clamp plate
- 4 x mounting nuts & bolts
- 250mm flexible tube
- 4 x pipe clamps
- Assembly instructions
